Re: Repairs to the Menemsha Bath House

At its meeting of October 20, 2010, the Board of Health took note of proposed repairs to the Menemsha Bath House under review at your upcoming meeting of November 2, 2010.

We would like to take this opportunity to draw your attention to the benefits of enhancing water-sparing devices in the system wherever possible, and welcome measures already taken to this effect.

In particular, we would like to encourage the installation of dual-flush toilets wherever the existing plumbing allows for effective use without extensive retrofitting. This could save thousands of gallons of water each season, which, in addition to saving money, would also help protect the Bath House septic system.

Thank you for your consideration of this matter.

Sincerely yours,

Marina Lent

Administrator/Inspector-BOH
