

Dear, Chilmark Selectmen

I would like to apply for a bottom grant in Menemsha pond for the purpose of raising oysters. I am trying to get into the industry. I've always been interested in commercial fishing, but oyster farming seems to make more sense. I think that I could succeed in raising oysters and I know that it would take a lot of hard work, time, effort and patience. But I would like to try it out. I could see myself being successful at this over time. Any other info for what I would need to carry this out would be helpful. Thank you for reading.
