Re: Representative to Joint Transportation Committee

Summary of last year's activity. Attended all JTC meetings. Subjects discussed focused mainly on TIP (Transportation Improvement Program) projects and their potential scheduling. All are down-Island. Also attended meetings with West Tisbury and MassHighways representatives regarding potential improvements to Old County Road and State Road intersection. There is still a need for the State to move ahead on a permanent solution for this dangerous location.

I would like to continue representing Chilmark on the JTC.

I did note that at recent Selectmen's meeting there was mention of the possibility of initiating off-site parking for Menemsha. If this is to be considered, there may well be TIP funds available for the project.
