

MEMO TO: BOARD OF SELECTMEN
FROM: DENNIS JASON, HARBOR MASTER
RE: HARBOR STAFF and UPDATE
DATE: 1 JULY, 2011

We have been working away at various issues to do with the harbor – mainly tying up loose ends from the West Dock fire, and cleaning up the docks after a lot of winter use.

We have reviewed applications for assistant wharfinger, have interviewed, and will be hiring **Ian Bardwell** as an assistant wharfinger as of today, and request that you appoint him to begin immediately.

We have a request from Evelyn to retain Danny Bryant's slip as she was a co-owner of the boat. We are seeking permission to consult with Ron Rappaport on the issue of her being entitled to retain the slip about their marital status.

Work will commence at Hariph's Creek to replace the dock and floats on the 5th or 6th and should take several days. Everything has been prefabricated.

Dennis Jason
Harbormaster
