**Subject:** request from the Squibnocket Pond District Advisory Committee

Greetings,

The Squibnocket Pond District Advisory Committee is looking for a volunteer Selectman to serve on our committee. Riggs served in the past.

We have a few meetings a year to review house plans for houses to be built in our overlay district. We will be meeting in 2011/2012 to continue work on the phragmites mapping and phragmites mitigation project. We are working with a separate committee of Chilmark voters who are concerned about the rampant growth of phragmites in the pond. They are tackling some of the legal, financial and biological/environmental aspects of dealing with the phragmites in Squibnocket Pond. A work in progress.....

I estimate the time commitment of our possible meetings would be only 5 hours a year.

Thanks so much for considering our request,

Wendy Weldon  
chair, Squibnocket Pond District Advisory Committee
