

The attached is the Site Review Committee report for Krishana's renovation plans for the Tea Lane Farmhouse. The Selectmen will be reviewing the plans and cost estimate for added value at their December 18th meeting that starts at 7:00 PM.

The Historical Commission also reviewed the plans last night and enthusiastically approved them. If Krishana decides to install 9 over 9 windows instead of the 6 over 6 as shown in the plans, the Historical Commission would also endorse the change. They also agreed with Krishana's recommendation to remove the two large bushes in front of the house facing Middle Road. It will open the view of the historic structure from the road. The Commission is confident Krishana will eventually replace them with a very thoughtful landscaping plan.
