### NOTICE OF FILING AND PUBLIC HEARING

D.P.U. 15-169

November 2, 2015

Petition of NSTAR Electric Company and Western Massachusetts Electric Company, each d/b/a Eversource Energy, pursuant to G.L. c. 25, § 21, for approval by the Department of Public Utilities of its Three-Year Energy Efficiency Plan for 2016 through 2018.

---

On October 30, 2015, NSTAR Electric Company and Western Massachusetts Electric Company, each d/b/a Eversource Energy ("Company"), filed with the Department of Public Utilities ("Department") a petition for approval of a three-year energy efficiency plan, covering calendar years 2016 through 2018 ("Three-Year Plan"). The Company filed its Three-Year Plan pursuant to An Act Relative to Green Communities, Acts of 2008, c. 169, § 11 ("Green Communities Act"), and Investigation by the Department of Public Utilities on its own Motion into Updating its Energy Efficiency Guidelines Consistent with An Act Relative to Green Communities, D.P.U. 08-50 (2008); D.P.U. 08-50-A (2009); D.P.U. 08-50-B (2009); D.P.U. 08-50-C (2011); D.P.U. 08-50-D (2012). The Department has docketed this matter as D.P.U. 15-169.

The Green Communities Act requires the Commonwealth's electric and gas distribution companies, and municipal aggregators with certified efficiency plans ("Program Administrators") to develop energy efficiency plans that provide for the acquisition of all available energy efficiency and demand reduction resources that are cost-effective or less expensive than supply. G.L. c. 25, § 21. To accomplish this goal, Program Administrators are required to develop three-year energy efficiency plans, in consultation with the Energy Efficiency Advisory Council ("Council"), and submit such plans to the Department. G.L. c. 25, § 21. Once a plan is submitted, the Green Communities Act requires the Department to: (1) consider the plan; (2) provide an opportunity for interested persons to be heard in a public hearing; and (3) within 90 days after the submission of the plan, issue a decision on the plan that ensures that all energy efficiency and demand reduction resources that are cost-effective or less expensive than supply have been identified and captured by the Program Administrator. G.L. c. 25, § 21.

The Company's proposed Three-Year Plan includes energy efficiency programs for residential, low-income, and commercial and industrial customers. The Plan also includes the Company's Residential Conservation Service filing. The Company's proposed budget for the

three-year period is \$921,022,515 (\$296,906,473 in 2016, \$307,712,379 in 2017, and \$316,403,663 in 2018) and includes a performance incentive.

If the Company's Three-Year Plan is approved as proposed, the Company states that its proposed budgets will have the following effects:
