Sealed bids will be accepted until **Wednesday February 10, 2016 at 4:00 PM** at the Selectmen's Office, 401 Middle Road, Chilmark, MA 02535-0119

Bids to include all project related fees.

Chilmark Community Center Vestibule Project

This solicitation by the Town of Chilmark (Town) seeks a lump sum competitive bid from qualified contractors (Bidders) for work on the Chilmark Community Center as described below.

Description

The "Project", is titled the "Chilmark Community Center Vestibule" and is located at Beetlebung Corner, Chilmark, MA.

The building is classified Use Group A-2, Assembly. Type 5B Construction.

The Project consists of building a new vestibule on and into the existing building, extending the roof out from the existing double doors and creating an interior vestibule that serves both winter and summer uses. This would include a new concrete entry steps with wrought iron handrails, a wood framed wind guards with windows on either side of the steps and vestibule inside the building with a gabled roof built on top of the existing roof, this gable roof is bracketed off the front of the building, covering the landing for weather protection.

Scope of Work: Contractor shall furnish and install all material and equipment shown, listed, or described on the drawings or in the attached Specifications, subject to qualifications, conditions, or exceptions as noted. The contractor also shall furnish all labor, scaffolding, and tools necessary to complete the work. The intent of this specification is a complete job performed to the highest standards of professional practice. The contractor shall use adequate numbers of skilled workmen who are thoroughly trained and experienced in the specified requirements and the methods needed for proper performance of the work as shown on the working drawings. Contractor is responsible for methods and techniques of construction and project safety at all times.

Interested bidders shall contact the Town to be sure they will receive related supplementary information (addenda) if any is provided during the bid period.

Bidders are required to visit the site in advance of submitting a bid to make their own inspection and assessment and to ask questions to clarify the scope of work in advance of submitting a bid. Any proposed alternative equal products must be approved in advance of bidding. If clarifications are warranted, the Town will issue an addendum to bidders who have expressed interest.

REQUIREMENTS

- A. Take precautions in advance to protect adjacent structure and surrounding landscape during the course of the work. Measures of protection shall be consistent with professional practice and industry standards, and shall be agreed to by the Town in advance of implementation.
- B. In making repairs to woodwork and flashing, take care to protect from damage all existing trim that is to remain including dentils and brackets. Secure all existing trim found to be loose. Utilize stainless steel fasteners throughout. Back prime all new wood and spot prime all instances of exposed wood with 2 coats of oil based primer after restoration and repairs.
- C. Keep a neat and clean work site at all times. Accommodate and facilitate the smooth continuous occupancy of the building in all aspects of performing this work, such as the configuration of staging, erection of interior plastic sheeting to isolate dust and debris, parking of work crew vehicles and language and behavior of workers.
- D. Provide staging that safely serves the trades involved, prevents public access and is compliant with all applicable regulations.
- E. OSHA Training required. You shall certify that all employees to be employed at the worksite will have successfully completed a course in construction safety and health approved by the United States Occupational Safety and Health Administration that is at least 10 hours in duration at the

time the employee begins work and who shall furnish documentation of successful completion of said course with the first certified payroll report for each employee.

- F. Deleader License: Contractor shall comply with all appropriate state laws and regulations.
- G. Bid deposit requirement. Each bidder must submit with its bid a bid deposit equal to five percent of the amount of the bid. The bid deposit may be a certified treasurer’s or cashier’s check payable to the awarding authority from a responsible bank or trust company, cash or a bid bond. M.G.L. c. 30, § 39M(a).

FORM FOR GENERAL BID

To the Awarding Authority:

A. The Undersigned proposes to furnish all labor and materials required for the Chilmark Community Center Vestibule (project) in Chilmark, Massachusetts, in accordance with the accompanying plans and specifications for the contract price specified below, subject to additions and deductions according to the terms of the specifications.

B. This bid includes addenda numbered _____

C. The proposed contract price is _____ dollars (\$_____).

E. The undersigned agrees that, if he is selected as general contractor, he will within five days, Saturdays, Sundays and legal holidays excluded, after presentation thereof by the awarding authority, execute a contract in accordance with the terms of this bid and furnish a labor and materials or payment bond, each of a surety company qualified to do business under the laws of the commonwealth and satisfactory to the awarding authority and each in the sum of 50% of the contract price, the premiums for which are to be paid by the general contractor and are included in the contract price; provided, however, that if there is more than 1 surety company, the surety companies shall be jointly and severally liable.

The undersigned hereby certifies that he is able to furnish labor that can work in harmony with all other elements of labor employed or to be employed on the work; that all employees to be employed at the worksite will have successfully completed a course in construction safety and health approved by the United States Occupational Safety and Health Administration that is at least 10 hours in duration at the time the employee begins work and who shall furnish documentation of successful completion of said course with the first certified payroll report for each employee; and that he will comply fully with all laws and regulations applicable to awards made subject to section 44A.

The undersigned further certifies under the penalties of perjury that this bid is in all respects bona fide, fair and made without collusion or fraud with any other person. As used in this subsection the word “person” shall mean any natural person, joint venture, partnership, corporation or other business or legal entity. The undersigned further certifies under penalty of perjury that the said undersigned is not presently debarred from doing public construction work in the commonwealth under the provisions of section twenty-nine F of chapter twenty-nine, or any other applicable debarment provisions of any other chapter of the General Laws or any rule or regulation promulgated thereunder.

For extra repairs as requested the	HOURLY RATE	Carpenter	\$: _____
		Painter	\$: _____

Did you deviate from the specifications in any way? (If yes, you must submit a detailed description of all deviations.) YES ___ NO ___

The contract owner’s representative will be: _____

The on-site supervisor will be: _____

I acknowledge that I have examined the site and I am familiar with existing conditions.
I certify under the penalties of perjury that the project information contained in the bids is accurate and complete.

“Community Center Vestibule”

SPECIFICATION

Chilmark Community Center Vestibule- Chilmark, MA

January 20, 2016

Description

The "Project", is titled the "Chilmark Community Center Vestibule" and is located at Beetlebung Corner, Chilmark, MA.

The building is classified Use Group A-2, Assembly. Type 5B Construction.

The Project consists of building a new vestibule on and into the existing building, extending the roof out from the existing double doors and creating an interior vestibule that serves both winter and summer uses. This would include a new concrete entry steps with wrought iron handrails, a wood framed wind guards with windows on either side of the steps and vestibule inside the building with a gabled roof built on top of the existing roof, this gable roof is bracketed off the front of the building, covering the landing for weather protection. This would include replacing the existing trim, gutter and siding with new materials on this elevation of the building: White cedar (grade A), 5" wood gutter, and Azzak trim.

Scope of Work: Contractor shall furnish and install all material and equipment shown, listed, or described on the drawings or in these Specifications, subject to qualifications, conditions, or exceptions as noted. The contractor also shall furnish all labor, scaffolding, and tools necessary to complete the work. The intent of this specification is a complete job performed to the highest standards of professional practice. The contractor shall use adequate numbers of skilled workmen who are thoroughly trained and experienced in the specified requirements and the methods needed for proper performance of the work as shown on the working drawings. Contractor is responsible for methods and techniques of construction and project safety at all times.

Regulatory Requirements

Compliance: Comply with all applicable regulatory requirements, including, but not limited to the Massachusetts State Building Code, local zoning variance issued for this project, any environmental requirements, including all local, State, or Federal Agencies having jurisdiction. Provisions for these requirements shall be included within the proposal submitted, whether explicitly indicated on the Construction Documents or not.

If any Contractor shall find any work described in the drawings or herein which is not in compliance with any code or regulation, he shall inform the Architect before proceeding with the work.

Fire Codes, Regulations, and Safety Standards:

Strictly adhere to the recommendations of the NFPA and all applicable fire codes, regulations and safety standards for materials, construction systems and methods, smoke density, fuel contribution, flame spread rating and other fire safety requirements. Make provisions for their inclusion within the scope of this Contract, and notify the Designer prior to bidding of potential conflicts with these requirements.

Warranties and Guarantees:

The Contractor shall warranty the completed job, including all of its components, for one full year from the date of substantial completion which shall be determined by the Architect at such time.

The Contractor shall provide the Owner with complete documentation at the completion of the project with operating instructions, directions, warranties, etc. for all products.

Details Drawings and Specifications Conflicts:

Should a conflict occur in or between Drawings and the Specifications contact the Architect before proceeding with work. In general, the order of precedence shall be as follows: For example, the Specifications shall take precedent over the large scale drawings which take precedent over the small scale drawings.

The Specifications

Large Scale Drawings: 1- 1/2" = 1'-0" to 1/2" = 1'-0"

Small Scale Drawings: 1/4" = 1'-0" or 1/8" = 1'-0"

Examination of Site:

The Contractor shall visit the site and examine for himself as to the nature and bearing capacity of the soil. He shall furnish all labor and materials necessary to prepare the site for execution of this contract.

Work and Materials Not Covered In Construction Documents:

Any item of work required by code or necessary to the proper completion of the Project shall be performed under this Contract in a manner deemed good practice of the trade involved.

Labor, materials, and equipment not specifically covered by the drawings and specifications shall be of a standard equal to good practice commensurate with the class of dwelling being constructed.

Contractor's Insurance:

Contractor will maintain such insurance as will protect him from claims under Workman's Compensation Acts and other employee benefits from claims for damages because of bodily injury, including death, and for claims for damages to property which may arise out of and during operations under this Contract, whether such operations be by himself or by any Subcontractor or anyone directly or indirectly employed by either of them. The contractor will maintain General Liability and Automobile Insurance in limits acceptable to the Town for the duration of the project. The Contractor shall file with the Owner a certificate for Property Damage Insurance in the limits for each accident and for the aggregate of operations. Insurance certificates shall name the town of Chilmark as insured.

Field Engineering

Provide such field engineering services as are required for proper completion of the Work including, but not necessarily limited to:

- Establishing and maintaining lines and levels.
- All project layouts and grades
- Verification of all key existing conditions
- Determination of soil bearing capacity, if required.

Related Work:

Use adequate numbers of skilled workmen who are thoroughly trained and experienced in the necessary crafts and who are completely familiar with the specified requirements and the methods needed for proper performance of the work of this Section.

Contractor's responsibilities shall include but not be limited to the following:

Locate and protect control points before starting work on the site. The control points shall be protected for as long a period as deemed necessary by the Architect.

Preserve permanent reference points during progress of the Work.

Promptly advise the Designer when a reference point is lost or destroyed, or requires relocation because of other changes in the Work. Upon direction of the Architect, require the field engineer to replace reference stakes or markers. Locate such replacements according to the original survey control.

Contractor is to provide proper sanitary facilities on site for the workmen on the job.

Site Work

Site work, provided by General Contractor, shall return the site back to the original condition in which it was found once construction is complete.

Demolition

A dumpster shall be located on site as needed during construction. Contractor has the option to live load demolition materials. Demolition to include, existing double doors, area around doors to allow for the new work and concrete steps. (Unless deemed to be in good shape for future work.)

Concrete Steps to be all concrete to be 3000 psi. Reinforce the bottom of the footing horizontally with two No. 5 bars.

Rough Carpentry

Provide all labor, equipment, and materials including wood, nails, screws, framing anchors, rough hardware etc. Floor joists, roof rafters, wood beams, and headers to be Spruce-Pine-Fir #2 or better. Vertical framing members to be Spruce KD #2 or better. Plywood to be 3/4" CDX for all wall sheathing, and 1/2" CDX elsewhere. 5/8" CDX for roofs. All exterior wood framing members and any wood in contact with concrete to be pressure treated.

Finish Carpentry

Provide all labor, equipment & materials including wood, nails, screws, hardware, etc. Interior casings and base moldings to be 5/4, 7/8" and 1 x stock – in sizes noted on the drawings, all to have painted finish.

Interior doors are to be Brosco/Morgan 1-3/8" thick panel style doors, half glass or an approved equal with insulated glass panels, exterior and interior applied muntin bars with spacer bars between the glass as shown on the drawings. Door Stops on all interior doors, Ives FS452 Kick Down Holder. Provide Flush bolts on the two way doors on the right hand side of the interior vestibule. Provide Café two way hinges for these doors.

Building Insulation

Provide building insulation where shown on the drawings and meeting energy code requirements. All exterior walls to contain 5 1/2" Batt insulation. Roof to contain 9" Batt insulation. Provide polystyrene ventilators (propa-vent type) underneath the roof sheathing in all rafter bays of venting new roof, spanning from ridge vent to eave vents.

Roofing

Provide new 25 year asphalt shingles to match existing, work into the existing roof. Provide total Ice and Water Shield coverage underneath at all new roof use copper flashing at valleys and rakes.

Gutters – Storm Drainage

All eaves to have gutters matching existing profile. Additional copper downspouts to be added aside the vestibule, matching existing.

Wood Side Wall

Provide labor, equipment, and materials to install white cedar shingles to the exterior wall surfaces to matching existing exposure to weather. Provide building wrap under shingles according to manufacturer's recommendations.

Flashing and Sheet Metal

Use copper flashing at all exposed areas.

Windows

New Windows to be *Marvin Ultimate Fixed Simulated Divided Lites in configurations shown on the drawings.* custom sized to match existing adjacent windows.. All windows to have primed pine interior finish. Provide copper window pans at bottom of rough opening. Windows may be factory cased with primed mahogany or cedar casings. Refer to drawings for details, the intent is to match existing community center details.

Exterior Doors

Exterior doors to be Ceco Hollow Metal Door Ansi A250.8-03 Level 2 – Heavy Duty Commercial Doors, Hot Dipped Galvanized in Style E605, which is a half glass panel door in a meal KD frame appropriate for drywall frame. Half glass or an approved equal with insulated glass panels, exterior and interior applied muntin bars with spacer bars between the glass as shown on the drawings. To be painted white. Supply and install steel door frame. Provide LCN 1371 automatic closers, each leaf.

Internally mounted vertical rod each leaf panic hardware, Von Duprin 9827-F/9927-F Surface Mounted Vertical Rod Fire Device.

Lever style to be chosen by owner.

Provide Brass kick plates on both sides of each leaf.

Hinges to be Ives 5BB1SCHW 5 Knuckle, Ball Bearing, Swing Clear Heavy Weight Full Mortise Hinge 92 degree operation provide three hinges per door.

Provide butts, lever latches, closers, stops and silencers as required for a complete and proper installation. To be approved by town.

Exterior eave trim and soffits to be 1 x Primed and Painted Poplar, profiles to match existing. Exterior window and door casings where they occur to primed cedar or mahogany as shown on the drawings top match the existing conditions on the building. Provide aluminum threshold.

Heavy use of these doors should be anticipated. A ready means of repairing the closer-mounts shall be designed into the installation. Coordinate this item with the town Building Supervisor.

Gypsum Wallboard

Provide gypsum moisture resistant wallboard with skim coat plaster, primed on walls and ceilings. Use USG gypsum wallboard in 48" widths. Level 5 finish (Skim coat).

Flooring

Existing Wood floor to be refinished.

Wall Surfaces – Interior Finishes:

Match existing. Vestibule to be Knotty Pine finish with wood base to match existing at Ante Room.

Ceiling – Provide Bead board finish on cathedral ceiling on outer part of enclosure and GWB on the interior part of the vestibule. To be painted.

Painting

All interior surfaces shall be primed and have two finish coats applied. Ceilings to be flat latex, walls to have eggshell finish latex and wood trim to have semi - gloss enamel. Owner to specify paint colors, Provide Test swatch for Owners' or Designers' approval.

Exterior Trim to be primed and then painted with exterior grade flat finish latex enamel, color to match existing Community Center.

SIGN over entrance to be provided as shown on plans, subject to submittal approval by the town.

Electrical

All rough wiring to be standard gauge.

Provide all outlets and switching shown on the drawings and as required by code and convenience. As approved by town.

Provide mounting block and wiring for ceiling mounted pendant inside vestibule, fixture to be determined.

Four interior and four exterior recessed lighting LED fixtures to be approved by town, similar to RPT-DESIGNERDRUM with battery backup and occupancy sensor or approved equal.

Surface mounted lights to be chosen by owner. Carry RAB Gooseneck LED Straight shade w/ 24" arm (RAB GN1LED26YSTW) white 26 W 3000K for over exterior steps.

Provide LED lit EXIT sign inside vestibule and front room connected to building's exit lights. EXIT signs are to be hardwired with battery backup. Location and model EXIT sign to be approved by town.

Job Location: 520 South Road

Information about Prevailing Wage Schedules for Awarding Authorities and Contractors

- This wage schedule applies only to the specific project referenced at the top of this page and uniquely identified by the “Wage Request Number” on all pages of this schedule.
- An Awarding Authority must request an updated wage schedule from the Department of Labor Standards (“DLS”) if it has not opened bids or selected a contractor within 90 days of the date of issuance of the wage schedule. For CM AT RISK projects (bid pursuant to G.L. c.149A), the earlier of: (a) the execution date of the GMP Amendment, or (b) the bid for the first construction scope of work must be within 90-days of the wage schedule issuance date.
- The wage schedule shall be incorporated in any advertisement or call for bids for the project as required by M.G.L. c. 149, § 27. The wage schedule shall be made a part of the contract awarded for the project. The wage schedule must be posted in a conspicuous place at the work site for the life of the project in accordance with M.G.L. c. 149 § 27. The wages listed on the wage schedule must be paid to employees performing construction work on the project whether they are employed by the prime contractor, a filed sub-bidder, or any sub-contractor.
- All apprentices working on the project are required to be registered with the Massachusetts Division of Apprentice Standards (DAS). Apprentice must keep his/her apprentice identification card on his/her person during all work hours on the project. An apprentice registered with DAS may be paid the lower apprentice wage rate at the applicable step as provided on the prevailing wage schedule. **If an apprentice rate is not listed on the prevailing wage schedule for the trade in which an apprentice is registered with the DAS, the apprentice must be paid the journeyworker's rate for the trade.**
- The wage rates will remain in effect for the duration of the project, except in the case of multi-year public construction projects. For construction projects lasting longer than one year, awarding authorities must request an updated wage schedule. Awarding authorities are required to request these updates no later than two weeks before the anniversary of the date the contract was executed by the awarding authority and the general contractor. For multi-year CM AT RISK projects, awarding authority must request an annual update no later than two weeks before the anniversary date, determined as the earlier of: (a) the execution date of the GMP Amendment, or (b) the execution date of the first amendment to permit procurement of construction services. Contractors are required to obtain the wage schedules from awarding authorities, and to pay no less than these rates to covered workers. The annual update requirement is not applicable to 27F “rental of equipment” contracts.
- Every contractor or subcontractor which performs construction work on the project is required to submit weekly payroll reports and a Statement of Compliance directly to the awarding authority by mail or email and keep them on file for three years. Each weekly payroll report must contain: the employee’s name, address, occupational classification, hours worked, and wages paid. Do not submit weekly payroll reports to DLS. A sample of a payroll reporting form may be obtained at <http://www.mass.gov/dols/pw>.
- Contractors with questions about the wage rates or classifications included on the wage schedule have an affirmative obligation to inquire with DLS at (617) 626-6953.
- Employees not receiving the prevailing wage rate set forth on the wage schedule may report the violation to the Fair Labor Division of the office of the Attorney General at (617) 727-3465.
- Failure of a contractor or subcontractor to pay the prevailing wage rates listed on the wage schedule to all employees who perform construction work on the project is a violation of the law and subjects the contractor or subcontractor to civil and criminal penalties.

This classification applies only to tree work done: (a) for a utility company, R.E.A. cooperative, or railroad or coal mining company, and (b) for the purpose of operating, maintaining, or repairing the utility company's equipment, and (c) by a person who is using hand or mechanical cutting methods and is on the ground. This classification does not apply to wholesale tree removal.

Additional Apprentices Information:

Minimum wage rates for apprentices employed on public works projects are listed above as a percentage of the pre-determined hourly wage rate established by the Commissioner under the provisions of the M.G.L. c. 149, ss. 26-27D. Apprentices ratios are established by the Division of Apprenticeship Training pursuant to M.G.L. c. 23, ss. 11E-11L.

All apprentices must be registered with the Division of Apprenticeship Training in accordance with M.G.L. c. 23, ss. 11E-11L.

All steps are six months (1000 hours.)

Ratios are expressed in allowable number of apprentices to journeymen or fraction thereof, unless otherwise specified.

** Multiple ratios are listed in the comment field.
